Financial aid obtained by the beneficiaries through SND can be divided into purposes as,

- Setting-up a business venture
- Transition from Service to Business sector
- Upscaling the existing business venture
- Setting up a Manufacturing unit/ Industries
- Diversifying their business

Idarah Hasanaat al-Qard al-Hasan al-Burhaniyah

Idarah Hasanaat al-Qard al-Hasan al-Burhaniyah has been set-up with *raza mubarak* of Syedna Mohammed Burhanuddin^{RA} and Syedna Aali Qadr Mufaddal Saifuddin^{TUS} under the guidance of Alvazaratus Saifiyah, for instilling the conceptual essence of Qardan Hasana into the Dawoodi Bohra community, and devising policies and procedures for the Qardan Hasana institutions functioning across the globe.

Qardan Hasana is a financial aid provided to Mumineen for various purposes. For the conceptualizers of the Qardan Hasana Scheme, this is not simply a mechanism for the giving out and receiving of funds. The intent is to leverage and promote the nature of giving and increase the quality of selflessness within the community. Through a variety of schemes, i.e. Mohammedi, Taher, and Husain, which allow small to large contributions, it has been made possible for any *Mumin* to become a 'contributor'.

Husain Scheme

The Qardan Hasana amount is given for a specific time. The contributed amount shall be returnable on its due date. The concept is to develop Mumineen's mindset for giving Qardan Hasana as an integral aspect of their life.

Taher Scheme

This scheme focuses on contributions made by Mumineen individually. The amount can be contributed in multiples of 215, 2015, or other units. This scheme is perpetual in nature, i.e., once the amount is contributed the amount becomes part of the corpus of the relevant Qardan Hasana Scheme/Trust.

Mohammedi Scheme

This scheme focuses on contributions made by Mumineen at large, collected on significant occasions such as on *lailat al-jumu'ah* or *yaum al-jumu'ah*, 16th of each month, Asharah Mubarakah, *'urs* or *meelaad* of Hudaat Kiraam^{AS}. This scheme is perpetual in nature, i.e., once the amount is contributed the amount becomes part of the corpus of the relevant Qardan Hasana Scheme/Trust.

The Qardan Hasana program is a platform to benefit and uplift individual members and households of Mumineen, by providing them financial support with some necessary elements like knowledge, technical know-how, contacts, and connections. The Qardan Hasana obtained by the beneficiaries can be divided into 5 purposes as:

- **Business;** for setting up of industries and manufacturing units, for starting a business or home industry, for capital growth, and for diversification.
- **Housing;** for purchasing, constructing, or renovating a house.
- **Education;** for schooling or specialization and advanced training in professional fields.
- **Medical;** for medical requirements like consultation, purchase of medicines, and paying medical bills.
- **Religious affairs;** for fulfilling religious obligations like Ziyaarat, attending Ashara Mubaraka, and other expenses.
